

6th Users' Conference of IT4Innovations

Friday, 4 November 2022

Users' Talks IV - atrium (09:30 - 10:50)

time	[id] title	presenter
09:30	[102] Electrons and Phonons in uranium hydrides - potential energy storage materials	LEGUT, Dominik
09:50	[65] Non-Covalent Interactions Atlas benchmark database	ŘEZÁČ, Jan
10:10	[66] Using the power of supercomputers to design new catalysts for selective oxidation reactions	Dr SKLENAK, Stepan
10:30	[69] Electrostatic and Electromagnetic fields as a knob to control nanofriction in nanostructured materials	Dr CAMMARATA, Antonio
