

6th Users' Conference of IT4Innovations

Friday, November 4, 2022

Users' Talks IV - atrium (9:30 AM - 10:50 AM)

time	[id] title	presenter
9:30 AM	[102] Electrons and Phonons in uranium hydrides - potential energy storage materials	LEGUT, Dominik
9:50 AM	[65] Non-Covalent Interactions Atlas benchmark database	ŘEZÁČ, Jan
10:10 AM	[66] Using the power of supercomputers to design new catalysts for selective oxidation reactions	Dr SKLENAK, Stepan
10:30 AM	[69] Electrostatic and Electromagnetic fields as a knob to control nanofriction in nanostructured materials	Dr CAMMARATA, Antonio
