

Kick-off meeting of the Global Expert project

Wednesday, May 3, 2023

Workshop: Sergii Kalytchuk: Fluorescent carbon dots for diverse applications - atrium (11:40 AM - 12:00 PM)

Workshop: Michal Langer: Optical properties of a typical molecular fluorophore IPCA in the context of CDs probed by the multiscale modelling - atrium (12:00 PM - 12:20 PM)

Workshop: Giorgio Zoppellaro: Photo-induced magnetic behaviour of carbon dots. Keys to unlock for aiding the design of carbon-based photocatalysts - atrium (12:20 PM - 12:40 PM)

Workshop: Marketa Palonciová: Structural insights into carbon dots from MD simulations - atrium (12:40 PM - 1:00 PM)
